## CLASSROOM CORNER

### Riddle Me This

Here is a Math riddle for you to brighten your day! What does  $6 \div 2(1+2)$  equal?

So many times, in life we come across riddles/problems that need solving. I am so thankful that we serve a God who has all the answers ready for us. James 1:5 is a great reminder to me of just that. "But if any of you lacks wisdom, let him ask of God, **who gives to all generously and without reproach**, and it will be given to him". It's so comforting to know that I do not need to have all the answers because our Lord in heaven already has them all!

We have been hard at work this school year in Middle School Math and English. The first few weeks of school we were focused on learning the routines of the classroom as well as getting used to the schedule of switching classes. In Math, we have been doing a lot of reviewing that ranges from understanding decimal place value (grade 5) to plotting box and whisker plots (grade 8). In ELA, we continue to focus on how to become an effective writer and things close readers must do.

We have had a great time so far this year. I am so excited that our school year is fully underway, and we can have in class learning full time. Remember not to worry when a problem arises because God, our father, has the answers to them all! Oh, by the way, the answer to the riddle above was 9 (PEMDAS rules!)

**TRUNKERS:** We will be having a limited number of vehicles in order to follow social distancing guidelines. We are asking for people to sign up in advance if you would like to participate by decorating a vehicle. Please contact Lynette Kroening at 310-7862 as soon as possible to secure your spot. We will NOT be able to accept any vehicles that aren't pre-registered.

**TREATERS:** If your child will be participating in this event, we ask that you text Lynette at 310-7862 with the number of children that will attend. It is extremely important that we have cooperation from everyone in attendance. We have the following guidelines in place:

- Children MUST be accompanied by an adult at all times and follow the flow of foot traffic from one vehicle to the next.
- TRUNKERS should provide their own candy. Bags will be provided.
- Families are to park in the church parking lot (or at school if there is no room.)

We ask that once your children have finished passing through the line that you go directly to your car. There shouldn't be any lingering or gathering of groups.

We are doing our best to plan an event that will be fun for the kids, while practicing social distancing to keep everyone safe. Your cooperation in helping us to be compliant is needed. The state continues to monitor events that are being held. Our wish is to follow the guidelines that have been established.

**Thank you for helping us make this a fun and special event for our school and church families.**
