CLASSROOM CORNER

Falling in Love with Learning

This time of year is so beautiful with the colorful fall leaves, the crisp air, and all of the yummy fall harvest of apples, pumpkins, and squash. It is also a wonderful time in the classroom. Students are learning and growing, feeling more confident because they are grasping how things work in second grade.

In Bible we are following the Israelites as they enter the Promise Land. The students are learning the Old Testament books of the Bible and their memory verses. In math we are concentrating on addition. We love to play "Around the World" as we sharpen our skills. Our handwriting is getting much neater as we practice printing before we enter into cursive. We are building our reading vocabulary and fluency as we tackle each of our reading stories. We have been working on sentence building with subjects and predicates. We are also doing creative writing taking our subjects to wonderful lands or placing them in unique adventures. Spelling and phonics help us increase our skills and vocabulary too. We are learning about our earth in science and in social studies we have learned about our seven continents, made maps, and had fun making landforms with flour/salt maps.

It is so wonderful to be back in the classroom where the students can take advantage of the full academic experience. We have done a lot of creative lessons with the writing process, painting, drills, crafts, and games. Some of the lessons are a bit difficult, but we are also learning that the Lord is our helper and that we can do all things through Him. Every morning we quote together Philippians 4:13 "I can do all things through Christ who strengthens me." This, to me, is the most important lesson for the students to learn.

It's Fall, so it's time to fall in love with learning.
