CLASSROOM CORNER

Riddle Me This

Here is a math riddle for you to brighten your day! What does $8 \div 2(3+1)$ equal?

So many times, in life we come across riddles/problems that need solving. I am so thankful that we serve a God who has all the answers ready for us. James 1:5 is a great reminder to me of just that. "But if any of you lacks wisdom, let him ask of God, **who gives to all generously and without reproach**, and it will be given to him." It's so comforting to know that I do not need to have all the answers because our Lord in heaven already has them all!

We have been hard at work this school year in Middle School Math and English. The first few weeks of school we were focused on learning the routines of the classroom as well as getting used to the schedule of switching classes. In Math, we have been doing a lot of reviewing that ranged from understanding the rules of integer operations (grade 7) to plotting box and whisker plots (Algebra). In ELA, we continue to focus on how to become an effective writer and things close readers must do.

We have had a great time so far this year. I am so excited that our school year is fully underway. Remember not to worry when a problem arises because God, our Father, has the answers to them all! Oh, by the way, the answer to the above riddle was 16 (PEMDAS rules!)
